Special Issue Introduction

It is prudent to have updates on the recent insights on our knowledge regarding different infectious, inflammatory and the degenerative lesions in the brain. This would help us hone our understanding about them as well as form an algorithm managing them. It is also helpful for the neurosurgeons in tactful patient management in some enigmatic cases.

Benefits

Open Access: the full-text of each published article can be accessed and downloaded from the journal website without any fee.

Rigorous Peer Review: we strictly follow international guidelines (COPE Ethical Guidelines for Peer Reviewers) and ensure rigorous peer review process.

Worldwide Readership: the readers of the journal are from more than 175 countries worldwide.

Wide Promotions: all published articles will be promoted on academic conferences, social networks for scientists or other various channels.
